I am a multimedia artist based in rural Ottawa, Ontario, with a diverse and comprehensive background in animation and digital arts. I graduated in April 2022 with a CAAT Advanced Diploma in 2D/3D Animation from St Clair College, where I successfully mastered essential animation fundamentals from classical and technical life-drawing, concept and character development, storyboarding and film theory to digital computer, modelling, rigging, and lighting and rendering.

The prospect of joining Sheridan's unique Digital Creature Animation program is incredibly exciting, with the opportunity to refine my animation skills and acquire new techniques to expand my creative horizons. My goal is to successfully complete this Digital Creature Animation program, then pursue the Masters Degree in 3D Animation at Dun Laoghaire Institute of Art and Design (IADT) in Ireland.

I believe creativity should have a compliment of effective technology and innovative problem-solving skills to thrive in today’s dynamic world. I acquired programming and web fundamentals in the Web Development and Internet Applications program at Algonquin College, and subsequently pursued a Digital Graphic Design certificate at Seneca Polytechnic, completing my final capstone course in Summer 2024. I enjoyed enriching my artistic expression in the Fine Arts Diploma program at the Ottawa School of Art (OSA), experimenting with a variety of media including sculpting, painting, ceramics, embroidery, multimedia, and mural design as well as contemporary and art history survey.

Constructive critique from both instructors and peers has been crucial to my artistic development, as I adapt and evolve to resolve challenges. I am eager to be academically and creatively inspired at Sheridan College as I continue to grow in the Digital Creature Animation program. My aspiration is to graduate with enriched knowledge and an eclectic practical skill set, prepared to make a significant impact in the global animation economy.

I invite you to visit my online portfolio at www.mywebsite.com to learn more about my work.

Thank you for your consideration,
